TORLYS® smart floors everest (designer, elite and premier)

Wood

Nothing compares to an exclusive wooden pavement, which transports us to, truly, unique environments.

Its look & feel are the maximum exponent of longevity, strength and perfection.

Natural wood means beauty and distinction.

The ingenious construction of Everest ensures:

- High resistance, thanks to the incorporation of high density wood;
- High resistance to weariness, thanks to high quality varnish;
- Thermic and acoustic comfort, thanks to the cork layer used;
- Anti-bacteria protection, thanks to Microban technology incorporated in the cork;
- Dimensional stability due to the use of HDF panels with low rate of swelling.
- Easy to install, thanks to technologic plug-in system Uniclic®.

Other features:

- Natural wood veneer, wide range, including exotic;
- Underlay free (cork incorporated);
- Micro 4-sided bevelling;
- High resistance to impact;
- 15, 20 e 25 weariness guarantee (home), according to collections: GOOD 10mm, BETTER 12mm, BEST 15mm;
- Possibility of using Bulldog tool.

TORLYS® smart floors linocork, cork florence (designer, elite, premier)

Linoleum

Produced from natural and renewable raw materials (linseed oil, wood, cork, resins and limestone dust), this pavement combines linoleum and cork proprieties. The use of cork and Micoban with linoleum, provides an extremely safe interior.

Easy to apply through the Uniclic system, this floating pavement is made of a superficial layer of linoleum (2mm thick), to which the cork is added, reducing sound transmission and temperature changes, to a high density wood shavings – HDF, giving it dimensional stability and resistance.

It is available in a wide range of vibrant and appellative colours, along with an elegant marbled pattern and high durability proof (15 weariness guarantee – home), hypoallergenic easy to maintain and to apply, Linocork has a guaranteed place in residential and commercial contemporary applications.

Cork

It's a millenary secret of Nature – cork is the paradigm of sustainability. It's a 100% natural and renewable raw material, on which is based the balance of cork oak groves, a hotspot of biodiversity.

Independent studies show that cork flexibility and its absorbing capacity play a crucial role in coating biomechanics performance, slowing overloading and reducing exhaustion.

We add it an ingenious and daring conjugation of cork décors and we bring you a cosy, calm and comfortable pavement – the essence of your space!

Uniquely textured and appellative it puts nature protection at your feet, coated with sophisticated technology which ensures you waterproofing, resistance, insulation and anti-bacteria protection.

These two collections are prepared for usage of Bulldog tool.
