

## Classic

modern classic

The classic range collections unveil a new language of modern classic and are inspired by classic and elegant shapes, recovering the essence of traditional designs.

The possibility of combining curves and straight lines with embossed panels and cross directional veneers enhances the beauty of the wood and highlights the elegance of the door.

Available in various finishes and natural wood with several options for glazing openings, collections of this line are the best option to create environments that strive for refinement of tradition and comfort.

## Exclusive

creativity and design

The Exclusive range collections are characterized by contemporary design and finishes in natural wood carefully selected top quality.

The combination of different species of wood with inlays provides a touch of distinction and modernity.

Ongoing investment in research and innovation, combining the know-how in woodworking to the most advanced technologies in the industry, enable us to offer unique design product collections, anticipating trends in contemporary decor.

Exclusive line provides inlays that define and stimulate creativity.

Finishing options in veneer or aluminium:

Inlay nº 1 - pau-rosa;

Inlay nº 3 - black;

Inlay nº 4 - pau santo;

Inlay nº 15 - aluminium

## Essential

contemporary and versatile

The Essential range is characterized by its versatility and purity of lines, creating environments where simplicity and modernity coexist.

Flush doors with several glazing and grooving options, with the option of FSC® certification; give this range the particularity of responding to various use and application requirements.

Available in natural wood veneer and dekodor®, (3D, SD, HD and SHD) - innovative finishes that reproduce the wood texture, ensure uniformity of tones and contribute to environmental sustainability.

## Coatings

veneer, dekordor and lacqued

### Veneer

There are two types of veneer, Natur and Natur SL, respectively natural veneer and compound veneer.

### Lacqued

Lacquered finishing.

### Magic colors

Natural veneer painted in RAL.

### Dekordor 3D (3D effect)

Embossing coating and horizontal design; Water, steam, and scratches resistant; light stability and easy cleaning. Eco-friendly.

### Dekordor HD (heavy duty)

High chemical and mechanic coating, resistance (CLP Continuous Pressure Laminate).

### Dekordor SD (standard duty)

Decorative coating which recreates the tones and appearance of natural veneer.

### Dekordor SHD (severe heavy duty)

High pressure laminates for intensive usage.

## Constructive Solutions

### PORTARO®

Concept combining that combines door, frame and accessories in one piece.

horizontal cut

### PORTARO® REBATED

Portaro® overlapping the rim of the door provides a better insulation.

horizontal cut

### PORTARO® INVERSE

An innovative solution, where the door is integrated in the panels, creating a contemporary space. Hinged door with hidden accessories, that provides better soundproofing.

horizontal cut

### PORTARO® PIVOTAL

A simple and linear design with hidden accessories; aesthetic impact when used up to a ceiling. The magnetic lock provides smooth and efficient closing.

horizontal cut

### PORTARO® SLIDING INTERIOR

A constructive solution that values and optimizes space; It allows the division of inner spaces, promoting continuity. Versatile and functional, the system collects the sliding door inside the wall.

horizontal cut

### PORTARO® SLIDING EXTERIOR

Sliding system characterized by the sliding door on the face of the wall, allowing an increase of free passage. It is a practical and applicable solution, for any kind of space, to create modern interiors.
